

Dear Potential Team Member:

Thank you for your interest in Saint Thomas Health Services (STHS) Outpatient Rehabilitation. STHS Outpatient Rehabilitation is Middle Tennessee's trusted provider of healthcare, sports medicine and outpatient rehabilitation services through its two divisions, Baptist Sports Medicine and Life Therapies.

Currently, we are in the process of expanding our network of clinic locations and adding to our team of more than 70 licensed therapists. We hope you will use this packet as an opportunity to learn more about our organization and the elements such as our team, our mission and our services which set our organization apart from competitors.

STHS Outpatient Rehabilitation's therapists have long been recognized as the premier providers of care with an average of 16 years of clinical experience and for their dedication to delivering unrivaled quality of care to our patients. At STHS Outpatient Rehabilitation, our first priority is the health and well-being of our patients, not meeting quotas or the bottom-line. Our focus is on providing our patients with a first-rate healthcare experience and superior clinical outcomes.

As a result of our two divisions, Baptist Sports Medicine and Life Therapies, we are able to offer the most comprehensive list of services in our region. This includes but is not limited to sports medicine, orthopedic, sports concussion and neurological, lymphedema, women's health, vestibular, neuropsychology and pediatric rehabilitation.

In addition, STHS Outpatient Rehabilitation partners up with sports teams, such as the NFL Tennessee Titans, and area high schools and universities to conduct extensive research to better serve our patient community and to advance our clinical methodology and practice. We are also proud to offer advanced technology for use during our patient care including Bioness® foot drop system and Dartfish software program, to enhance the gait patterns of our neurologically involved patients and objectively measure and record gait and abnormal movement patterns in our orthopedic population.

I look forward to sitting down with you and discussing all the opportunities that await you within our organization. In the meantime, visit our websites, www.BaptistSportsMedicine.com or www.STHSLifeTherapies.com or call me with any questions you may have.

Again, thank you for considering STHS Outpatient Rehabilitation.

Best regards,

Bubba McIntosh
